

CONSERVATION AND CULTIVATION OF MEDICINAL PLANTS

NARAYAN SINGH
PAWAN KUMAR 'BHARTI'

Contents

Preface

1. Medicinal Plants: *Introduction* 1-3
Pankaj Sharma
2. Cultivation and Conservation of Medicinal Plants
in India: *Past, Present and Future Prospects* 4-25
Maneesha Singh and Shivani Walia
3. Pharmacological and Phytochemical Profile of
Eclipta alba (L.) as the Valuable Renowned Medicinal Plant 26-39
**Showkat Ahmad Bhat, Sheikh Bilal, Ishraq Hussain,
Ahmad Arif Reshi, Manzoor R Mir, Sabhiya Majid,
Sonallah, Muneeb U Rehman, Wasim Qurishi**
4. Conservation of Anti-Cancerous Medicinal Plants and
Their Quality Assurance 40-66
Prasann Kumar
5. Conservation of Endangered Medicinal Plants
Through Plant Tissue Culture 67-95
Archana Rani and Sanjeev Kumar
6. Shrubs: *Boon to Human for Conservational and
Medicinal Purposes* 96-116
Jyoti Pandey, Deeksha Nautiyal and Meenakshi Jalal
7. Herbal Option and Alternative Therapies for
Asthma: *An Overview* 117-129
Atul Kabra, Uttam Singh Baghel
8. Jojoba (ho-ho-ba): *A Wonder Plant with
Medicinal and Commercial Values* 130-144
Kamal Jit Singh and Anil Kumar Thakur
9. Utility of Medicinal Plants in Restraintment of
Environmental Pollution 145-151
Musarrat Nafees and Ghufuran Ahmad

10. Phytochemical and Pharmacological Properties of <i>Maytenus emarginata</i> Monika Rana, Atul Kabra and Ruchika Kabra	152-167
11. <i>Rauvolfia serpentina</i> (Serpigandha): An Overview Archana Rani and Sanjeev Kumar	168-188
Index	189-194
