

Medicinal Plant Farm Faculty of Pharmacy, Tanta University

- The Medicinal Plant Farm of the Faculty of Pharmacy, Tanta University is located in the University Campus of Seperpay and covers an area of about 1.5 acres.
- The farm is of great importance to the Faculty of Pharmacy as it provides medicinal plants for practical sessions of pharmacognosy and phytotherapy for undergraduate students in order to develop their practical and applied skills.
- It also supplies the faculty with medicinal plants needed for the applied scientific research conducted by the researchers including master and PhD students in the field of phytotherapy and aromatherapy .
