

Devices used for Treatment

1 - Inhaler & types+spacer

- a - AerosolMDI
- b - With a spacer
 - c - Autohaler
 - d - Easibreathe
 - e - Accuhaler

2 - Nasel spray

3 - Enema

- a - Cold Enema
- b - Warm Enema
- c - Hot Enema

4 - insulin pump

- a - Connected with tubes or infusion sets
- b - Tubeless Insulin Pump
- c - Implantable insulin pump

5 - insulin pen

Devices used for Diagnostic

1 - Sphygmomanometer

a - Aneroid sphygmomanometer with an adult cuff

b - Aneroid sphygmomanometer dial, bulb, and air valve

c - ambulatory blood pressure monitor

d - Wristech Blood Pressure Monitor

e - finger type blood pressure monitor

f - Clinical tunnel type blood pressure monitor

g - "Speaker" Blood Pressure Monitor (Wrist of arm type)

h - Portable Multi-parameter Patient Monitor (CE/FDA)

2 - stethoscope

a-Digitalstethoscope

b-visualstethoscope

3 - Thermometers

a - Digital thermometer

b - Infrared & Digital thermometer

c - Forehead thermometer

d - Mouth thermometer

e - Ear thermometer

f - Baby soother

4 - blood glucose monitoring

a - (Blood Sugar Meters with Test Strips)

b - Digital bl. Glucose monitoring

c - UV meter

d - Skin meter

e - Continuous blood glucose monitoring

5 - Non invasive blood glucose monitoring

a - Lifescan glucose meters

b - Bayer glucose meters

c - AccuCheck glucose meter

d - one touch glucose meters

e - Freestyle Flash Glucose Meter

f - Blood sugar monitoring contact lens

g - Wireless blood glucose monitoring

h - A Needle Free Continuous Glucose Monitoring System

i - The Sanofi iBGStar blood glucose monitor (BGM)

j - Sugar Bug A 2mm-wide implant keeps tabs on blood sugar.

k - Blood Sugar Monitor On Dashboard

l - Fatness meter

m - Fingertip Oximeter

6 – Tongue depressor

a - Wooden Tongue depressor

b - Tongue Depressor with Torch and Neck Rope.

c - Tongue Depressor Torch With Neck Cord

d - Tongue depressor with pinlight

e - Plastic Tongue depressor

f - Rubber Tongue depressor

g - SUPERFEET Tongue Depressors

Devices For Health care

Baby care :

A - Baby feeding

1-Spoon feeding

a: flat bowl (prefered)

b: deep bowl

2- cup drinking

- 3- cup with spouts
- 4-Lids without a spout
- 5- bottle feeding
- 6- soother and nipples
- 7- bottle sterilizer
- 8- bottle warmer
- 9- bottle brush
- 10- breast pump
- a-electric
- b- manual
- 11- navel clip
- 12- carry coat
- 13- baby monitor
- 14- baby bath tub
- 15- car seat
- 16- baby teether

Measuring instruments

- 1- electronic baby scale
- 2- baby scale
- 3- healthy scale
- 4- household balance
- 5- electronic body scale

Body Care

1 – Wheel chair

- a – Stander wheel chair
- b – Modified wheel chair
- c – Toilet wheel chair
- d – Wheel chair with table
- e – wheel chair with bed
- f – Electric wheel chair

2 – Walkers

- a – C.P Walkers
- b – Walker with wheel chair
- c – Folding Walker

3 – Crutches

- a – Underarm crutches
- b - Forearm crutches
- c – Triple Stick

4 – silicone

- a – Silicone Toe Cap
- b – Silicone Toe Protector
- c – Silicone insole
- d– Silicone Heel

Injection Devices Index

1 -- Lancte

Lancet device-lancet pen

Auto safety blood lancet

Lancing device + lancets for blood test

Blood lancet

Pull Off Type Lancets

2 - needles

Disposable Hypodermic Needle

Veterinary Injection Needle (KS SN11)

Spinal Needle

Pericardial needle

Bone marrow aspiration needle

Vented Needles and Dispensing Connectors

Disposable Needles

EMG Concentric Needle

Aluminum Hub Needle

Huber Infusion Needles

3-sets

Safety Infusion System Pump Sets

Epidural Accessories and Sets

Pediatric Epidural Trays and CSE Sets

Combined Spinal/Epidural Anesthesia Sets.

Continuous Nerve Block Sets

Fluid Transfer Set

Pediatric drip set

Vaginal Irrigation Set

Scalp Vein Set

Anesthesia IV Administration Sets

Infusion set

Pump Sets

Hemodialysis Blood Tubing Sets (Venous Drip Chamber L Sized)

4-syringes

Standard Syringe Single Button Type

Safety Retractable Syringe

Tuberculin Syringes

Light Proof Syringe

Prefilled Syringe (2.25ML)

Insulin Syringe

Disposable Syringes with Lure Lock

Automatic Syringe (30mL)

Ear Syringes

Irrigator Syringe

Enema Syringe

Disposable Syringes

Dental Syringe

IV Catheter

suction catheter

IV Cateter with Injection Port

5ml Continuous Injector

Injector pen for insulin dosage

Automatic injection pens

i-port Insulin Delivery Injection Device 6mm - Box of 10

SQ pen, Diabetes Management International

Rubber and plastic

1-measuring spoons

2-calibration spoons

3-medicine cup

4-breast pump

5-condom

6-electric toothbrush

7-toothbrushes

8-condome catheters

9-hot water battels(ice bag)

10-irrigation syringe

11-Tourniquet

12-Cotton Buds/Stickers

14-3-Way Stopcock(part in I.V systemes which control rate)

15-Mucus Extractor

16-Disposable Colostomy Bag(used by colostomy patient,s to act as receptacles for the human waste (faeces)

17-Umbilical Cord Clamp

18-Tongue Depressor Wooden(to diagnosis tonsitis)

19-Closed Wound Suction Unit

20-Ear Syringe

21-Dental: Ortho Clean N Care(container for protection pacifiers_.....)

22-nipple shields

HOSPITAL USE

- 1 - ryles tube
- 2 - Disposable electrode handle
- 3 - endotracheal tube
- 4 - Nasal cannul
- 5 - mask oxygen
- 6 - nebulizer mask
- 7-Tracheostomy tube
- 8 - lighting clip cartridge
- 9 - disposable infusion
- 10 - flow regulator
- 11 - burette set
- 12 - Tensile circle
- 13 - latex foley catheter
- 14 - silicone foley catheter
- 15 - central venous pressure catheter set
- 16 - supra bublic pvc
- 17- central venous pressure manometer set
- 18-Disposable Infusion Set with CE&ISO
- 19-Feeding Tube
- 20-Endotracheal Tube
- 21-Tracheal Tube

22-Tracheostomy Mask

23-Adjustable Mask

24-Oxygen Mask with Reservoir Bag

25-A225 Enema Bags
