.....

Tanta University
Faculty of Pharmacy

Please fulfill the following inquiries:

The scientific purpose of research.

Type and number of animal used.

Description of animal treatment (in detail).

Duration of experiment.

Condition of housing of animals.

Tanta University
Faculty of Pharmacy

Food and water supply.

Veterinarian care.

Method of killing and specimen collection.

Disposal of sacrificed animals.

Parameter measured.

Pharmacology and toxicity profile of the drug in relation to the utilized dose.

COMMITMENT

The ethical guidelines to conduct research on human subject.

The participants should be informed with.

- ❖ The purpose of the research
- ❖ How long their participation will last
- ❖ The practicalities and procedures involved in the study.
- ❖ The possible benefits and risks of participation and, when appropriate, the alternative therapies
- ❖ How data about them will be managed and used
- ❖ How long and where the data will be stored
- ❖ The purpose of the consent form
- ❖ How information will be provided to them throughout the research
- ❖ That their participation is voluntary
- ❖ That they can withdraw from the study at any time, without giving any reason and without compromising their future treatment
- ❖ That the research has been approved by a research ethics committee.

Please fulfill the following inquiries:

The scientific purpose of research.

Is there any evidence of prior experimentation of this research on animals.

Age range ,sex and number of volunteers.

Description of treatment and sample collection (in detail) .

Research Ethics Committee

Tanta University
Faculty of Pharmacy

Drug pharmacology and toxicity profile in relation to the utilized dose.

Medical care of volunteers.

Funding source (if there is a relation between funding authority and research point).

Tanta University
Faculty of Pharmacy

Commitment

I commit to provide photocopy of consent forms of all subjects involved to the ethical committee when requested before publishing or submitting to refereeing
